PROFESSIONAL SUMMARY

IT Undergraduate from SLIIT (Final results pending) with six months of hands-on network experience at Colombo West International Terminal (CWIT), Sri Lanka's first fully automated port terminal. Skilled in Cisco switching and wireless, Palo Alto and FortiGate firewalls, IPsec VPN, Fiber and data center operations. Seeking a Network Engineer or NOC Engineer role.

TECHNICAL SKILLS

Network administration: Enterprise LAN/WAN operations, switch and router configuration (Cisco IOS), VLANs, trunking, routing, port management, IP troubleshooting, change and maintenance windows

Wireless & monitoring: Cisco Wireless LAN Controller (WLC), AP and client roaming, Cisco Catalyst Center (DNAC), alert and incident monitoring

Network security: Palo Alto Networks (PAN-OS), Fortinet FortiGate (FortiOS), firewall policies, firmware upgrades, IPsec site-to-site VPN

Voice: Cisco Unified Communications Manager (CUCM), Cisco IP phone provisioning

Physical infrastructure: Fiber splicing, FLUKE Versiv 2 testing, structured cabling, rack labelling, UPS and battery health checks

Data center & systems: Main DC, PLC and DR data center operations, VMware vCenter, blade servers, Docker

Tools: Microsoft Visio, Cisco Packet Tracer, Git, Postman

Programming: Python, Java, C, C++, Kotlin, JavaScript / TypeScript, PHP

Web & databases: HTML, CSS, React.js, Node.js, Express.js, SQL, MongoDB

Soft skills: Problem solving, analytical thinking, collaboration, communication, technical documentation

EXPERIENCE

IT Intern (Network & Systems) | Colombo West International Terminal (Private) Limited *Apr 2026 – Oct 2026*

Shift-based IT operations in a 24/7, high-availability port and terminal IT/OT environment.

- **Network administration:** Assisted with configuring and troubleshooting enterprise switches and routers (VLANs, routing, port management), including new aggregation switches for the ABB, ZPMC and CAMCO automation systems.
- **Wireless & monitoring:** Configured **12 new Internal Transfer Vehicles (ITVs)** and supported their Wi-Fi management through the **Cisco WLC**; monitored the network with **Cisco Catalyst Center** across **6-night maintenance windows**.
- **Network security:** Supported **Palo Alto** and **FortiGate** firmware updates, assisted in configuring a new **FortiGate 101F** and its rules, and an **IPsec VPN** to Sampath Bank.
- **Fiber & infrastructure:** Spliced and tested Fiber (**FLUKE Versiv 2**) for remote crane-operator (RCO) desks, **2 new gantry cranes (CRMGs)** and yard Wi-Fi poles; labelled IT-OT racks and ran weekly UPS checks.
- **Data centers & systems:** Supported the **main DC, PLC and DR data centers**, VM management in **VMware vCenter** and blade servers, and provisioned Cisco IP phones in **CUCM**.
- **Operations & documentation:** Supported shift-based incident handling and network changes with the IT, engineering and operations teams; helped complete the **Phase 2 network architecture in Visio**.

Service letter available on request.

RESEARCH

SpeakFree – AI Speech Disorder Screening & Therapy Assistant (R26-IT-086) | SLIIT *2026*

- Built the speech capture and feature-extraction component of a four-member research platform: a browser capture UI (**React, TypeScript, Vite**) and a **FastAPI** backend.
- Implemented noise reduction, voice activity detection, **Whisper** speech recognition with confidence scoring, **HuBERT** embeddings and **Librosa** acoustic features.
- Delivered output as a structured JSON contract for the other three components; containerised with **Docker, Celery and Redis**.

CERTIFICATIONS & TRAINING

Cisco Certified Network Associate (CCNA) | Cisco Networking Academy (NetAcad) *Currently studying*

- Studying routing and switching, IP addressing and subnetting, VLANs, wireless, network security and automation fundamentals.

Fortinet Network Security Expert (NSE) Certification | Fortinet Training Institute *Currently studying*

- Studying Fortinet security fundamentals, FortiGate firewall operation and network security concepts.

EDUCATION

BSc (Hons) in Information Technology | Sri Lanka Institute of Information Technology (SLIIT) *Nov 2022 – 2026*

- **Completed – Final results pending.** Specialisation in Information Technology. Relevant modules: Computer Systems & Network Administration (IT4110), Modern Topics in IT (IT4020), Cloud Computing (IT4090), Database Administration (IT4040).

Diploma in Business English | Institute of Management & Business Studies *Jan 2019 – Nov 2019*

GCE Advanced Level (Engineering Technology) | Bandaranayake College, Gampaha *Feb 2022*

- Engineering Technology (B), Science for Technology (B), ICT (C), General English (B).

GCE Ordinary Level | Bandaranayake College, Gampaha *Dec 2018*

- 7 A's and 2 B's, including A passes in English, ICT and Mathematics.

ACADEMIC PROJECTS

Security Service Management System **(Web Application)** | Group Project *Jul 2024 – Nov 2024*

- Built the inventory management module using MongoDB, Express.js, React.js and Node.js; used Git and Postman for version control and API testing.

Nightlife Photography Management System **(Skill-sharing social platform)** | Group Project *Jul 2023 – Nov 2023*

- Built a platform for uploading, viewing and sharing nightlife event photos, with a Spring Boot backend, OAuth 2.0 authentication, Firebase Cloud Storage for images and MySQL for structured data.

LEADERSHIP & ACTIVITIES

- President, Bandaranayake College Red Cross Society (2019 – 2020)
- Member, Bandaranayake College Cricket Team (2015 – 2017)
